

## **Using Adobe Premiere to create a side by side video**

Create the videos

Have documents ready – save each Power Point slide as a jpeg file

Open Adobe Premiere

Go to New Project, save with appropriate name

Go to Edit, Preferences, General

Click Default scale to frame, OK

Go to File

Import

Select files you want to import (may do all at once or one at a time)

Grab file/files you want as the bigger portion of screen and put in Video 1

Grab file you want as the smaller portion and put in Video 2

Double click on Video 2 file, grab corners to resize or move as needed

Add title

Export as Movie
